ABSTRACT

This report presents statistical data and facts, covering a 10-year period, concerning college and university enrollment numbers, degrees conferred, faculty and staff status and compensation, financial status, and investments of Kentucky's higher educational institutions. Among the information revealed by the statistical data, which comprise over 95 percent of the report, are the following: (1) total headcount enrollment at the state-supported institutions increased by 28 percent within the period studied, and full-time equivalent enrollment at the state-supported institutions increased by 21 percent during the same time period; (2) total degrees and other formal awards conferred by the state-supported institutions decreased by 2 percent between 1980/81 and 1989/90, and the universities experienced a 7 percent decrease in degrees awarded; (3) the largest increase in employment between 1981 and 1990 was in professional nonfaculty, increasing by 51 percent at the universities and 244 percent at the University of Kentucky Community Colleges; and (4) between 1982/83 and 1991/92, resident undergraduate tuition increased by 99 percent at the doctoral institutions, 93 percent at institutions offering Masters degrees, and 74 percent at the community colleges. Finally, the total estimated value of the physical plants of Kentucky public higher education institutions was estimated at $2.1 billion. (GLR)

Dear Colleague:

Kentucky's public higher education system is made up of eight universities and 14 community colleges. A separate board governs each university, with the community college system as a part of the University of Kentucky. This publication also includes data for 21 independent colleges and universities that are licensed by the Council on Higher Education and are members of the Council of Independent Kentucky Colleges and Universities.

The Kentucky Council on Higher Education serves as the coordinating agency for the public institutions. As such, it is the Council's responsibility to engage in analysis and research to determine the overall needs of higher education in the Commonwealth. This is made possible by a comprehensive data base collected and maintained by Council staff.

This ten-year "Information Digest" contains a collection of statistical data and facts collected by CHE, and is designed as a reference tool for all those with an interest in, or need for, information on higher education. The selection of material for this volume has been based on requests most frequently made of Council staff, and may be utilized to complement three other Council publications: "Kentucky College and Universities Enrollments," "Kentucky College and Universities Enrollment Origins," and "Kentucky College and University Degrees and Other Formal Awards."

Sincerely,

Gary S. Cox
Executive Director

This category includes subcategories for student services administration, social and cultural development, counseling and career guidance, financial aid administration, student admission, student records, student health services, and intercollegiate athletics. Intercollegiate Athletics is categorized as a student services "educational and general" expenditure unless it is operating as a self-supporting activity and,

therefore, reported as an auxiliary enterprise operation. Examples of intercollegiate athletics expenditures are salaries of coaches and trainers, officiating, travel, grants-in-aid, ticket sales, and advertising. Excluded from intercollegiate athletics are those activities that relate to intramural athletics and to student financial aid.

Also included are persons who perform some of the duties of a professional or technician in a supportive role, which usually require less formal training and/or experience normally required for professional technical status. Such positions may fall within an identified pattern of staff development and promotion under a "New Careers" concept.

TENURE - Status of a personnel position, or a person occupying a position or occupation, with respect to performance or position.

TENURE TRACK - Positions that lead to consideration for tenure.

TUITION AND FEES - Includes all charges (net of refunds) against students for educational and general purposes. Charges for room, board, and other services rendered by auxiliary enterprises are not included in this category, but are classified as auxiliary enterprises revenue.

OVERVIEW AND FORMULA GUIDELINES SUMMARY

The Kentucky Appropriation Recommendation Formula is designed to generate a level of state appropriation to support (at a level comparable to surrounding states) the Kentucky system of public higher education, as it currently exists. Provided below is a brief description of each formula component/subcomponent and its method of calculation.

The formula does not generate funds to cover all activities conducted by the institutions (for example, housing and dining operations) nor does it account for all sources of funds available to the institutions (for example, federal funds). Additionally, the formula is not intended for use as an internal budgeting or allocation tool. Setting institutional priorities and allocating funds to achieve them is the responsibility of administrators and governing boards at the individual institutions.

Three-year actual enrollment averages are used in the calculation as a buffer against enrollment fluctuations, either up or down. The three-year average allows time for institutions to adjust funding when enrollment declines and for the state to adjust funding when enrollment increases. "Mandated programs" is the term used to describe activities or programs which an institution has been specifically assigned.

Component/Subcomponent	Method of Calculation	Description
Instruction		
Instruction	Rates x 3-year average SCH (by discipline and level)	Instruction, departmental research, and departmental public service.
Kentucky Residency Program	(Faculty x average compensation) + (house staff x average compensation) + DOE @ 15% of total compensation	Legislatively-mandated medical residency placements in community hospitals (outside the two health science centers). Applicable to UK and UL only.
Area Health Education System	Rates x student weeks (by discipline)	Placements for health science students to practice in rural areas with professional practitioners.
Salary Incentive Fund	Base funding (1987/88 appropriations increased by inflation)	Funds appropriated in 1986/88 to target specific faculty and staff retention problems.
Unfunded Retirement	KTRS estimates (EKU, KSU, MoSU, MuSU, WKU) Actuarial tables (UK, UKCCS, UL)	KTRS institutions: employer's retirement overmatch required by statute. UK, UKCCS, UL: funding for retired personnel who do not generate funds in the formula and who are not covered by the current retirement plan. NKU: not applicable.
